Professional Experience

Senior Software Engineer
McAfee, LLC - Hillsboro, OR
Aug 2007 - Aug 2012; Jan 2018 - present

- Key contributor to the ePolicy Orchestrator (ePO) enterprise management console for on-premises and cloud releases
- Designed and implemented many key UI enhancements including customizable dashboards, improved policy workflows, and dark mode
- Worked with customers to improve the product and user experience
- Winner of an internal design contest to improve cross-product workflows

Software Development Manager
McAfee, LLC - Hillsboro, OR
Aug 2012 - Jan 2018

- Development Manager for the ePO team over several key releases
- Helped develop the strategy for bringing ePO from on-prem to cloud
- Guided the development team through the adoption of the Scrum process

Developer & Security Services Liaison
INX - Eugene, OR
Jan 2002 - Jun 2007

- Built web reporting tools for network security and IP telephony management
- Provided configuration, maintenance, and ongoing analysis for network security systems (firewall, IDS, IPS)

Education

California State Polytechnic University, Pomona
Bachelor of Science, Computer Science, 2002
